Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements 30 September 2017

#### Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of the interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements as at 30 September 2017 are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

#### 11. Assets held for sale (continued)

During 2015, the Directors approved the closure of the Group's Sohar factory in Oman and also decided to dispose off the factory assets ("disposal group"). Consequently, assets having a net book value of AED 13.45 million were reclassified from 'Property, plant and equipment' under non-current assets to 'Assets held for sale' under current assets.

During 2016, the Directors decided to use assets amounting to AED 1.38 million. Accordingly, such assets were reclassified as assets available for use as at 31 December 2016. Those assets were measured at the lower of their recoverable amount and the carrying values that would have been recognized had the asset never been reclassified as held-for-sale.

During the current period, (i) the fair value of buildings included in assets held for sale was reassessed based on agreement signed with a third party buyer and consequently an impairment loss of AED 2.5 million was recorded in profit or loss. The buildings have been disposed off in the current period and the carrying value (net of impairment losses) was fully realized. (ii) the Directors have decided to dismantle and move the remaining assets, from Oman to the UAE and use them in the Group's current production facilities. Accordingly, these assets have been reclassified as assets held for use under property, plant and equipment as at 30 September 2017. These assets have been measured at the lower of their recoverable amount and the carrying values that would have been recognized had the assets never been reclassified as held-for-sale. Accordingly, an impairment charge of AED 2.8 has been recorded in the current period, on their reclassification to assets held for use.

#### 12. Retained earnings/(accumulated losses)

At the Annual General Meeting held on 23 March 2017, the shareholders also approved the directors' fee amounting to AED 0.9 million for the year ended 31 December 2016.

In the previous year, the shareholders approved to transfer general reserve amounting to AED 0.9 million to accumulated losses.

#### 21. Financial instruments

#### Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2016.

Financial assets consist of cash and cash equivalents, due from related parties, trade and other receivables and available-for-sale investments. Financial liabilities consist of short term borrowings, long term borrowings, due to related parties and trade and other payables.

The fair values of financial instruments are not materially different from their carrying values.

#### Valuation of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: inputs that are quoted market price (unadjusted) in an active market for identical instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted market prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: inputs that are unobservable. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Notes to the condensed consolidated interim financial statements for the nine month period ended 30 September 2017 (unaudited)

#### 21. Financial instruments (continued)

#### Valuation of financial instruments (continued)

The table below analyses financial instruments, measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorized:

30 September 2017	Level 1	Level 2	Level 3	Total
	AED'000	AED'000	AED'000	AED'000
Available-for-sale investments	16	=	5,578	5,594
31 December 2016	Level 1	Level 2	Level 3	Total
	AED'000	AED'000	AED'000	AED'000
Available-for-sale investments	326	- =	5,577 ====	5,903

During the period ended 30 September 2017 and year ended 31 December 2016, there were no transfers between the various levels of fair value measurements.

#### 22. Seasonality

Due to seasonal nature of the business of the Group, the results of operations of certain quarters, which fall in off peak periods may be substantially different from other quarters, which fall in the peak seasons (i.e. during summer season). Therefore, revenue from operations may not be evenly distributed over the four quarters of the same year and thus the results of operations of each quarter may not be comparable to other quarters of the same year.

#### 23. Comparatives

Certain reclassifications were made to prior period numbers in these condensed consolidated interim financial statements to conform with the current period presentation.
